Project Name:

Bloom

Project Overview:

Welcome to the Bloom App guide! Our app is designed to help all plant lovers to find all they need about their passion. Our app includes the main features :

- Tips & Tricks about plants, how to take of them, watering…. Etc.
- Community to share whatever you need with other plant lovers and seek help if you need it.
- AI chatbot to ask for all the information you need about plants.
- Marketplace to purchase all your favorite plants.

Our app includes a high level of security and a real time database using Firebase and all its features (authentication, storage, Cloud firestore)

Bloom App include multiple screens:

Splash screen

Onboarding screens
